Stallion Ceiling Tiles

Square-shaped ceiling tiles, commonly known as 2x2 for Ceiling applications, are a popular choice for commercial spaces.

They bring versatility, ease of installation and ability to create a modern, sleek look making them highly sought after.

Their durability and low maintenance requirements further contribute to their appeal in busy environments.

From retail stores and offices to hospitality settings, 2X2 Ceiling Tiles continue to be valued for their functional benefits and aesthetic appeal.

About Us

Gypmart India Pvt. Limited is emerging as a leading manufacturer of Gypsum Boards, Plasters, and Accessories in Eastern India. Established in 2019, we have become one of the fastest-growing companies in this sector.

At Gypmart, we are guided by the core philosophy of “Quality First, Customer First.”

Our flagship brand, Stallion, has earned recognition for quality, service, and value for money.

All our products are manufactured at a state-of-the-art facility in Amta, Howrah (West Bengal). With advanced automation and a high level of process control, we consistently deliver reliable products that ensure customer delight.

We sincerely look forward to a long-term association with you and greatly value your feedback and suggestions.
